

EASTBURY COMMUNITY SCHOOL

RECORD RETENTION AND DELETION POLICY

This record retention and deletion policy contains recommended retention periods for the different record series created and maintained by Eastbury Community School in the course of our business. The schedule refers to all information regardless of the media in which it is stored.

Some of the retention periods are governed by statute. Others are guidelines following best practice. Every effort has been made to ensure that these retention periods are compliant with the requirements of the General Data Protection Regulations (GDPR), Data Protection Act 2018 (DPA) and the Freedom of Information Act 2000 (FOI).

Managing record series using these retention guidelines will be deemed to be “normal processing” under the legislation mentioned above. If record series are to be kept for longer or shorter periods than laid out in this document the reasons for this need to be documented.

This policy will be reviewed at intervals of no less than three years, or exceptionally, if required by changes in Data Protection, Freedom of Information or other relevant legislation.

If printed, copied or otherwise transferred from this website this document must be considered to be an uncontrolled copy.

1. The purpose of the retention schedule

Under the Freedom of Information Act 2000, schools are required to maintain a retention schedule listing the record series which the school creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to all information, regardless of the media in which they are stored.

2. Benefits of a retention schedule

There are a number of benefits which arise from the use of a complete retention schedule:

- a. Managing records against the retention schedule is deemed to be “normal processing” under the General Data Protection Regulations, Data Protection Act 2018 and the Freedom of Information Act 2000. Provided members of staff are managing records using the retention schedule they can not be found guilty of unauthorised tampering with files once a freedom of information request or a data subject access request has been made.
- b. Members of staff can be confident about destroying information at the appropriate time.
- c. Information which is subject to Freedom of Information and Data Protection legislation will be available when required.
- d. The school is not maintaining and storing information unnecessarily.

3. Maintaining and amending the retention schedule

Where appropriate the retention schedule should be reviewed and amended to include any new record series created and remove any obsolete record series.

4. What to do with records once they have reached the end of their administrative life

4a Destruction of records

Where records have been identified for destruction they should be disposed of in an appropriate way. All records containing personal information, or sensitive policy information should be shredded before disposal (if possible). Any other records should be bundled up and disposed of to a waste paper merchant or disposed of in other appropriate ways.

The Freedom of Information Act 2000 requires the school to maintain a list of records which have been destroyed and who authorised their destruction. Members of staff should record at least:

- File reference (or another unique identifier);
- File title (or brief description);
- Number of files
- The name of the authorising officer

This could be kept in an Excel spreadsheet or other database format.

4b Transfer of records to the Archives

Where records have been identified as being worthy of permanent preservation, arrangements should be made to transfer the records to the Archives.

4c Transfer of information to other media

Where lengthy retention periods have been allocated to records, members of staff may wish to consider converting paper records to other media such as microform or digital media. The lifespan of the media and the ability to migrate data where necessary should always be considered.

4d Transfer of information between schools

When a child leaves the school all records for the child should be transferred in a secure manner to the child's new school. If the records contain sensitive information (e.g. child protection records) proof of receipt should be obtained. All data held by the school should then be deleted including all paper records and data stored electronically. A record should be kept for tracking and auditing purposes only.

5. All Staff

Everyone is responsible for:

- Following procedures and guidance for managing, retaining and disposing of records.
- Only disposing of records in accordance with the requirements outlined in this policy (if authorised to do so).
- Ensuring that any proposed divergence from the records retention and disposal policies is authorised by the Head Teacher.
